Jean Louis Giovannoli
Congress Committee Chairman

Mónica Guinea
EFP European Coordinator
Invitation to Stockholm

Dear friends and colleagues,
It is a pleasure and an honour for me to welcome you to Europerio 6 in Stockholm June 4-6 2009. Time really flies and it is important that you already now reserve those dates for the biggest and most prestigious meeting in periodontology and implant dentistry held in Europe. Why not go online directly on our webpage www.efp.net and make an early registration ensuring you to get a good deal and the hotel accommodation that you really would like to have.

Europerio 6 is the meeting place between science, clinical practice and our industry partners in the field of periodontology and implant dentistry. We in the organizing committee have spared no effort in designing the program for your different needs as dentists, specialists and dental hygienists. Europerio 6 is the natural arena where the latest science is presented by the world’s most famous speakers. This is however not enough, we have specifically instructed our speakers to answer focused questions ensuring you that you really will be given “take home messages” applicable in your own clinical practice. Europerio is also a fantastic opportunity for young researchers to present their data and to interact with colleagues interested in the same research field. Last time more than 700 abstracts were accepted indicating the enormous research interest in periodontology and implant dentistry. I would be more than happy to see this Europerio attract even more young researchers from all over the globe.

While you are in Sweden, allow a few extra days to really explore Stockholm “The Capital of Scandinavia” and its archipelago, or why not visit “The Glass Country” in Småland. Whatever your choice will be I am sure that you will enjoy coming.

Please mark in your agenda Europerio 6 in Stockholm, June 4-6, 2009 or reserve a place immediately on www.efp.net so you won’t forget it. I promise you won’t regret it.

We look forward on seeing you here.

Stefan Renvert
Chairman
Abstracts of scientific presentations (both basic and clinical research) as well as clinical presentations (case series, innovative surgical or therapeutic approaches, etc...) should be submitted for consideration. ONLY online abstract submissions before NOVEMBER 30th 2008 will be accepted.

An international abstract committee will evaluate the submission and decide upon its selection as oral or poster presentation. The abstracts selected will be included in the final program.

The presentation of a clinical or research communication carries the obligation to register at the Europerio Meeting.

For further information regarding abstract submission go to www.efp.net

Jaccard – EFP Research Prize Competition

The EFP is pleased to announce the Jaccard-EFP Research Prize competition. The Prize is aimed with the object of promoting research in Europe. It was created with the funds from the ARPA International and is entrusted to the University of Geneva.

The prize is awarded once every three years at the meeting of the EFP. It is open to all members of the Societies of Periodontology which are part of the EFP. The research work must not have been published previously or presented at any meeting. The manuscripts should be prepared according to the “Instructions to Authors” of the Journal of Clinical Periodontology as the three best entries will be published in this Journal. Manuscripts should be sent to the EFP office (see address below). Deadline for manuscript submission: November 30th, 2008. An International Panel will be selected and will select three nominees, based on the quality of the submitted manuscripts, who will participate in the final competition. The nominees for the prize (first authors must present the paper) will be personally informed by the EFP European Co-ordinator at least three months prior to the date of EuroPerio. Accommodation, travel expenses and registration fee for the selected three presenters will be paid by the EFP. These finalists will present his or her work in a 20 minutes oral presentation, followed by 10 minutes discussion during Europerio 6 in Stockholm. The winner will then be selected on the merits of the submitted manuscript, as well as on the oral presentation and the subsequent discussion period. The winner will receive a monetary prize award of CHF 10,000, approx 6,224 EUR – together with a Certificate of Award. All candidates who wish to participate in the Jaccard- EFP Research Prize competition are requested to send their manuscript to:

Mónica Guinea – EFP European Co-ordinator
EFP office: c/ Antonio Lopez Aguado nº 4, bajo dcha – Madrid 28029 Spain

Manuscripts received after November 30th, 2008 will not be accepted

Olof Holdar - Stockholm Visitors Board

Stockholm
The Capital of Scandinavia
Thursday June 4\textsuperscript{th}, 2009

OPENING CEREMONY

AUDITORIUM SESSIONS

Keynote Lecture
To be confirmed

Non surgical periodontal therapy
- Biofilms and periodontitis – why are they so difficult to treat? P. Marsh
- Clinical protocols for infection control: mechanical and/or chemical approaches. S. Jepsen
- Healing models and clinical outcomes: when do we need periodontal surgery? N. Lang

Implant therapy in perio-patients
- Biofilms and peri-implantitis: how can we beat them? Understanding peri-implant infection & host response as a rationale for therapy. T. Berglundh
- Clinical studies. Set the level of periodontal therapy necessary to reduce the risk of implant failure. M. Quirynen
- Non-surgical & surgical approaches to peri-implantitis: clinical protocols and procedures. S. Renvert

Periomedicine
- Effect of periodontitis on general health. R. Williams
- Effect of periodontal therapy on general health. P. Papapanou

MASTER CLINICIAN SESSION: PERIODONTAL THERAPY

Diagnosis and treatment of patients with aggressive periodontitis
- New advances in diagnostics. How to “catch” the AP patients. H. Tenenbaum
- Protocols for infection control: why and when systemic antibiotics are of “value”. A.J. van Winkelhoff
- The contribution of surgery in changing the prognosis of compromised teeth. L. Trombelli
- Long term stability: how to manage the risk of disease recurrence. N. Claffey

European Workshop – “EAP” Report
- Innovations in non surgical periodontal therapy. U. van der Velden
- Periodontal tissue engineering and regeneration. F. Hughes

MASTER CLINICIAN SESSION: IMPLANT THERAPY

Advanced imaging in implant therapy
- Modern CT imaging for implant planning: indications and limits. T. van de Velde
- Precision and accuracy in computer assisted implant positioning. A. Sicilia
- Problems in computer assisted implant positioning. B. Klinge
- Flapless surgery through navigation system: benefits and risks. F. Bonnet

European Workshop – “EAP” Report
- Critical issues in bone regeneration and implant therapy. I. Needleman
- Periodontal disease and systemic health. P. Madianos

EFP / AAP Session
Managing the aging population

JACCARD PRIZE SESSION

DENTAL HYGIENIST PROGRAM

COURSE on Supportive Periodontal Therapy
- Supportive periodontal therapy for the management of patients susceptible to periodontal diseases and treated with implant therapy. Clinical protocols. M. Benfenati and J. Suvan

+ Research and clinical communications, poster sessions
+ Sponsors workshops at the commercial exhibition

WELCOME RECEPTION AT THE STOCKHOLM INTERNATIONAL FAIRS
Friday June 5th, 2009

AUDITORIUM SESSIONS

Periodontal Regeneration
- Healing models: the biological way to rebuild the lost periodontium. U. Wikesjo
- Clinical studies: efficacy, predictability & long-term outcomes. M. Sanz
- Surgical approaches: the impact of microsurgery and minimally invasive techniques. M. Tonetti

Periodontal Plastic Surgery
- Clinical studies and healing models: grafts, flaps and regeneration. M. Christgau
- Root coverage of single recessions: translating science into clinical practice. R. Burkhardt
- Root coverage of multiple recessions: translating science into clinical practice. M. de Sanctis

Soft & hard tissue management around implants in patients susceptible to periodontal diseases
- Hard/soft tissue management in the aesthetic areas: how to rebuild, how to preserve tissue around implants? E. Rompen
- Hard/soft tissue management in posterior areas: rebuilding the missing bone. M. Merli
- Hard/soft tissue management in posterior areas: using the existing bone. F. Renouard

MASTER CLINICIAN SESSION: PERIODONTAL THERAPY

Novel approaches to antimicrobial therapy
- Laser anti-microbial therapy. I. Ishikawa
- Pre & Pro-biotics in establishing a healthy microflora. W. Teughels
- Role of antimicrobial peptides in the control of inflammation and periodontitis. J. Meyle
- How does diet affect inflammation? I. Chapple

The rehabilitation of patients with advanced periodontal disease
- How to manage migrated teeth: the ortho-perio connection. C. Nemcovsky
- The role of bone/tooth resective surgery: how to change the prognosis of compromised teeth. A. Fonzar
- When implant therapy add value: the issue of function. J.I. Gamborena

Innovative approaches in periodontal surgery
- Laser in periodontal surgery: already a reality? F. Schwarz
- Dermal matrix in periodontal plastic surgery. A. Novaes
- Microsurgical approach to periodontal plastic surgery. O. Zuhr
- Tissue engineering: where are we today? W. Giannobile

MASTER CLINICIAN SESSION: IMPLANT THERAPY

Practical issues in implant therapy
- General health, genetics and behaviour: do they really affect implant therapy? A. Mombelli
- Apical infection around implants: why and how does it happen? P. Trisi
- Local factors in implant survival. A. Parlar
- Bisphosphonates: what do we know? R. Landesberg

Decreasing the healing time in implant therapy
- Primary implant stability: is it important? C. Hammerle
- Immediate implant placement: benefits and risks. H. de Bruyn
- Immediate implant loading in partially edentulous patients: benefits and risks. M. Goldstein
- Critical review of immediate implant loading in fully edentulous patients. G. Gallucci

Bone augmentation for implant therapy
- Management of the extraction socket. M. Araujo
- Vertical and horizontal bone augmentation: indications, complications and long term clinical outcomes. N. Donos
- Maxillary sinus floor elevation: indications, complications and long term clinical outcomes. T. Testori
- Tissue engineering in implant dentistry: where are we today? H. Terheyden
FORUM FOR SPECIALISTS
Understanding periodontitis and managing infection
• The role of the immune system in periodontal diseases. K. Kollveit
• Analysis of gingival fluid components around teeth and implants. E. Kononen
• Aggressive periodontitis: epidemiology and clinical profile. J. Kissa
• Healing models following non-surgical periodontal therapy. T. Konopka

Periodontal therapy
• Laser in non-surgical periodontal therapy: a real contribution? A. Sculean
• Regenerative surgery: indications and limits in the treatment of intrabony defects. D. Bozic
• Periodontal regeneration: indications and limits in the treatment of furcation defects. V. Lekovic
• Interdisciplinary approach to patients with severe periodontitis: the perio-ortho-prostho team work. I. Drizhal

Implant therapy: How to choose the proper approach
• How to reduce the risk of peri-implantitis: the safe way to long term implant survival. B. Demiralp
• Soft tissue management in anterior implants: a challenge for patient function and aesthetics. M. Lorenzoni
• Short implants vs sinus lifting: an evaluation of the relative advantages and risks. R. Faria
• Ridge augmentation & regeneration of neighbouring teeth. P. Windish

DENTAL HYGIENIST PROGRAM
Subgingival instrumentation / decontamination
• Biofilms: structure, eradication, recolonization. P. Baehni
• Mechanical approach or combined with systemic/local ABs. P. Adriaens
• Anti-infective therapy using ER: Yrg lasers. B. Gaspirc
• Instruments and materials: novelties. B. Bush

Clinical protocols for non-surgical periodontal therapy
• Diagnosis and risk assessment: what is relevant to know for a proper therapeutic approach. R. Knevel
• Behaviour change models to promote oral and periodontal health. K.H. Abrahamssson
• Patients perspective on periodontal infection control. K. Ohrn
• Smoking cessation protocols: are they effective? C. Ramsaier

Home Care
• Powered or manual toothbrushes? A. Fundak
• The use of antiseptics in addition to mechanical plaque control. P. Ramberg
• Interdental cleaning: when and how much. F. van der Weijden
• Self-assessment or professional assessment? Frequency and modalities. C. Camorali

+ Research and clinical communications, poster sessions
+ Sponsors workshops at the commercial exhibition

WWW.EFP.NET
Saturday June 6th, 2009

AUDITORIUM SESSIONS
The baseline key issue: save the tooth or place an implant?
- The critical decisions in treatment planning: the scientific evidence. J. Lindhe
- Save the teeth: the periodontal solution. Non-surgical and surgical approaches. M. Hurzeler
- Extract the teeth: the implant solution. Immediate vs delayed approaches. R. Jung

The long- term key issue: how do we manage implant complications?
- Long term outcomes and complications: biological vs mechanical. R. Palmer
- Keep the implant with mechanical or soft tissue complications: How do we manage? U. Bragger
- Extract the implant with complications: what do we do next? E. Machtei

MEET THE EXPERT SESSION
Meet the expert and learn surgical techniques in Periodontology
- Advanced periodontal flap surgery: the papilla preservation flaps. H. Wachtel
- Coronally positioned flap and bilaminar techniques for root coverage: technical novelties. G. Zucchelli

Meet the expert and learn surgical techniques in Implant Therapy
- Sinus Augmentation procedures: how to do it and how to reduce the risks of major side effects. P. Valentini
- Key issues for aesthetics in implant therapy: when and how change the morphology of soft and hard tissues. U. Grunder

MASTER CLINICIAN SESSION: PERIODONTAL THERAPY
Novelties in diagnostics in periodontal practice
- Microbiological testing in periodontology: is it relevant? D. Herrera
- What is the role for salivary and crevicular fluid diagnostics in Periodontology? T. Sorsa
- How do we identify and measure peri implant pathology? S. Schou
- Genetic risk indicators in periodontal and implant therapy. B. Loos

MASTER CLINICIAN SESSION: IMPLANT THERAPY
Changes in morphology and surfaces: a new generation of implants.
- Evaluation of different implant surfaces. An advantage for osseointegration and/or risk for peri-implant infections? J. Ellingsen
- The role of implant surfaces during osseointegration: a look into future development. Z. Schwartz
- Implant technology beyond titanium: a help to aesthetic management? R. Kohal
- Biological width, platform switching, transmucosal elements: where do you place your connection? J.S. Hermann

DENTAL HYGIENIST PROGRAM
Relationship with systemic health
- How to handle patients with halitosis. E.G. Winkel
- Oral health and systemic health. P. Holmstrup
- The clinical approach to patients at systemic risk. O. Norderyd
- Elderly patients: a growing reality. P. Andersson

- Research and clinical communications, poster sessions
- Sponsors workshops at the commercial exhibition

CLOSING CEREMONY

FAREWELL PARTY AT THE VASA MUSEUM
Visit and have dinner in one of the most fabulous museums in Europe. A ticket must be purchased. Limited number of seats.

Registration

We recommend that you register on-line through www.efp.net. You can also use the application form, but please observe that an additional fee of SEK 250, approximately EUR 30 will be added. This does not apply for students as they are required to submit a letter from their chairman or program director to get the lower student fee.

Registration Fees in SEK including 25% VAT. All payments must be done in SEK.
(Approx rate in EUR as per June 2008)

***Student participants are required to fax or send a letter of introduction from their department chairman or programme director.

If you have any question in connection with your registration, please contact the Congress Secretariat:
MCI – Stockholm Office
Phone:  +46 8 5465 15 00
Fax:  +46 8 5465 15 99
E-mail:  confirmation@mci-group.se

Your registration will be processed on a “first come – first served” basis. Events included in the registration fee need to be pre-booked. A confirmation letter will be sent to you prior to the congress confirming your booked events, hotel accommodation and payment status.

Deadline for pre-registration is May 31st, 2009. If payment/registration is made after this date, you will receive your confirmation at the Congress Office on site. Registration on site is possible during the entire congress within the opening hours of the registration counter.

Registration fee will include; conference documentation, participation of the whole scientific program, entrance to the poster session, attendance to the Opening Ceremony and Welcome Reception and visit to the Industrial Exhibition.

Cancellation must be in writing and sent to the Congress Secretariat, MCI Stockholm Office. If received before April 30th, 2009 all fees, except for cancellation charge of SEK 500 (EUR 53), will be refunded. No refunds will be made after April 30th, 2009.

For replacement we will charge a handling fee of SEK 200 (EUR 21) for name change.

Processing and Publication of Personal Data
The personal data of the participants may be required before and even after the congress has been held (to render an account of the conclusions arrived at during the meeting, for statistical purpose, for special invitations prior to the meeting, and for the dispatch of information on future Congresses within the appropriate field).

Due to common rules adopted within the EU and Sweden, we require notification of your consent to this data processing on the registration form.

Important Dates

| November 30th 2008 | Deadline for submission for clinical and research communication abstracts and manuscripts submission for Jaccard Prize. |
| January 31st 2009  | Notification and classification of accepted abstracts. |
| February 28th 2009 | End of early registration fee |
| May 31st 2009      | End of regular registration fee |
Accommodation

MCI Stockholm Office has made block bookings in selected hotels, most of them located in the centre of Stockholm and within walking distance to public transportation. The rooms contracted for this congress was made long in advance. Market situations sometimes change and in such cases hotels may publish on-line or, on direct enquiry, daily rates which do not correspond to the prices contracted for this congress. (Rates in EUR as per June 2008)

Please note that you must register to attend the Congress at the same time you make your hotel reservation. Your reservation will be confirmed when MCI has received your registration form together with your credit card number to guarantee your reservation. Reservations will be taken care of on a “first come, first served” basis. All hotel costs are to be settled directly with the hotel. If the desired hotel is already fully booked, MCI reserves the right to arrange accommodation in another hotel.

Deadline for reservation and cancellation
After the following dates available rooms cannot be guaranteed:
Category 1   March 2nd 2009
Category 2   May 2nd 2009
Changes/cancellations to confirmed reservations prior to above mentioned deadlines will be accommodated with an administration fee of SEK 500 (53 EUR).
In case of cancellation after above deadlines, the cost of cancelled nights will charged to your credit card.

Group Reservation
Group reservation (10 rooms minimum) will be handled by separate contracts and separate regulations. Please contact MCI directly for further information at hotels-sweden@mci-group.com
Please use one form per person

Do not forget to take a copy for your own records!
General Information

Congress Venue
Stockholm International Fairs (Stockholmsmässan), Mässvägen 1, Ålvsjö, SE-125 80 Stockholm, Sweden
www.stofair.se, Phone: +46 8 749 41 00, Fax: +46 8 99 11 35

Commercial Exhibition
Hall A will be used for exhibiting all modern available technology and innovation in oral health. Diamond, Platinum and Gold sponsors will organize workshops in their booths inside the exhibition. Visit the commercial exhibition on www.efp.net for more information.

Public Transportation
The congress venue is located south of the city of Stockholm and is easily reached by public transports. The commuter train leaves from the Central Railway Station every 10 minutes and will take you to the Stockholm International Fairs, within 9 minutes. The train usually departs from track 13 or 14 to Ålvsjö Station, which is the third stop from the Central Railway Station.

Arlinda Airport and Transport
Arlinda Airport is located approx. 40 km north of Stockholm. The Arlanda Express is the train service that links Stockholm City with the airport. The journey takes about 20 minutes and costs SEK220 for one-way ticket. Book your Arlanda Express ticket in advance at a discounted price, SEK200 at the same time you register for the congress. Your confirmation letter will serve as a ticket when presented to the train conductor.
Other ways to reach the city
Taxi: We recommend that you request a fixed price from the airport to the city, approx. SEK 500.
Bus: There is a direct bus connection from the airport to the City Terminal in central Stockholm. The journey takes about 40 minutes and costs SEK 95. (All prices are valid as of June 2008)

Insurance
Neither the Congress Organizers nor the Congress Secretariat accepts any liability for personal injuries sustained, or for loss or damage to property belonging to congress participants, either during or as a result of the congress. It is strongly recommended that you purchase an insurance policy of your choice as you register for the congress and book your travel. The insurance should be purchased in your country of origin.

Lunches
Lunches are not included in the registration fee. Catering areas will be set-up in the exhibition area. There are several restaurants and other facilities inside and outside the Fairs.

Language
The official language is English. Simultaneous interpretation from English to French, Spanish, Italian and German will be provided in the sessions held in the Victoria Hall (the Auditorium). Dental Hygienist Programme will be translated into Swedish. Other language translations will be provided upon request from the EFP societies.

Currency
The currency in Sweden is the Swedish Krona, SEK. A currency calculation can be found online at www.x-rates.com/calculator.html. Approximate exchange rates (June 2008) are:
1 EUR = SEK 9.38   1 USD = SEK 6.08

STAR ALLIANCE
THE WAY THE EARTH CONNECTS

Get up to 20% discount with the Star Alliance network

The Star Alliance™ member airlines are pleased to be appointed as the Official Airline Network for Europerio-6.

Simply call the reservation office of any participating Star Alliance member airline and quote the event code SK01759. Registered participants plus one accompanying person travelling to the event are automatically granted a discount of up to 20%, depending on the class of travel.

Participating airlines for this event are: ANA, Air Canada, Asiana Airlines, Austrian Airlines, LOT Polish Airlines, Lufthansa, SWISS International Air Lines, Scandinavian Airlines & Blue1, South African Airways, Spanair, TAP Portugal, THAI, United

Booking office information can be found at: www.staralliance.com/conventionsplus

Discounts are offered on published business and economy class fares, excluding website/internet fares, senior and youth fares, group fares and Round the World fares.

Please note: For travel from Japan and New Zealand, special fares or discounts are offered by the participating airlines on their own network.
